

Montana Earth Science Picture of the Week

name: _____

Go to www.formontana.net . Scroll down to find the picture assigned for this week. Click on it.

1. What is the title of the picture? _____

Where is the area shown in the image located? Be as specific as possible.

Read the explanation beneath the picture, and then ask two **Earth Science-related** questions about what you've just read. **Each question must begin with the word "why."** Write your questions in the space below, and then provide **correct** answers.

2. question: **Why** _____

answer:

3. question: **Why** _____

answer:

4. Select one of the terms listed near the bottom of the computer screen. Use a dictionary, your textbook, or the Internet to find the definition of the term **as it is used in Earth Science**.

term: _____ **The definition must be in YOUR OWN WORDS.
Use words that you understand!**

definition:

5. Next, complete the following statement. (Do not provide an answer.)
One thing about this topic that I do not understand is (begin with why, or how) _____

After you have completed 1-5 above, you can earn 2 extra points by showing the "picture of the week" to a parent. **Explain it to them**, and have them sign below to indicate that you've done this.

DO NOT SIGN THIS
until the student has shown you the picture **AND** explained it.
